## LETTER OF RECOMMENDATION

CHICKASAW POINT GOLF CLUB

Joel:

I meant to send this a while back, so please forgive the delay.

I just want to say that Chickasaw Point was very pleased with the performance of J Davis Construction as our design-build partner on construction of The Overlook. Our Community is very pleased with the way the building turned out and we are very proud of it.

The J. Davis Team, including Jason Fleck as Project Manager and Frank Pursley as Site Superintendent, did a great job on quality, budget and schedule. In addition, they worked with our ongoing operations, especially the golf course, very well during construction. Lastly, but most important, we had a very safe jobsite both for the craft personnel and our residents.

As the Owner's Project Manager, please feel free to use me as a reference.

Wishing you and your entire team a Merry Christmas!

Club House Reconstruction  
EDI 17.14

Dear Joel:

As we are concluding this project, I would like to extend my appreciation to you and all of your staff for making this such a successful project.

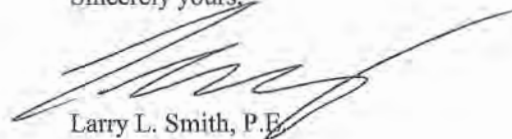

Due to the catastrophic loss and the deadline for completion, there was no time for formal drawings and specifications to accurately define the project. But using the existing drawings, your team was able to procure pricing and create a construction schedule to meet our Spring opening.

During the course of construction, your team was always considering what was best for the Owner. In addition, they worked closely with us in our negotiations with the insurance company. As a result, the project was completed on time, within budget and to the complete satisfaction of the Owner.

In my practice as a consulting engineer, I have completed projects throughout the country with many different contractors and have found your company to be the most professional and caring organizations I have had the privilege to work with. We would highly recommend J. Davis Construction for any project.

Thank you to you and your staff.

Sincerely yours,

Larry L. Smith, P.E.

12245 South Highway 11  
Westminster, SC 29693

Dear Joel and the J. Davis Team,

Cullasaja Club would like to thank you and your remarkable team for helping us with our Clubhouse renovation and for creating a remarkable new space for our membership. It was a pleasure to partner with J. Davis and your commitment to excellence and hands on approach to seeing our important project through to a successful completion was stellar. We were proud to deliver our newly renovated Clubhouse to members on time and under budget and with a high degree of detail that was not lost on our constituents, many who owned or operated construction companies in the past.

I want to give accolades to several J. Davis team members but especially to Jason Fleck and Pyzon Moore who were outstanding to work with throughout the project. They both did a phenomenal job as Project Manager and Superintendent. I would also like to recognize Alley Linder and Terry Horomanski for their leadership which proved invaluable during the project.

On behalf to the Board of Governors, the members and the staff of Cullasaja Club, thank you for providing us a space that will create remarkable memories for our members and their friends/families for many years to come. The respect we gained for you and your company is substantial and we do not hesitate to recommend J. Davis Construction to anyone in need of a professional and fully capable general contractor. We are very grateful to everyone on the J. Davis team that contributed to the timeliness and overall success of our project.
